Make your own...

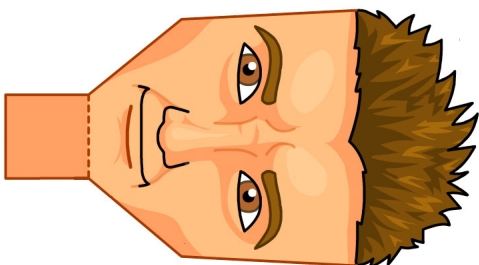

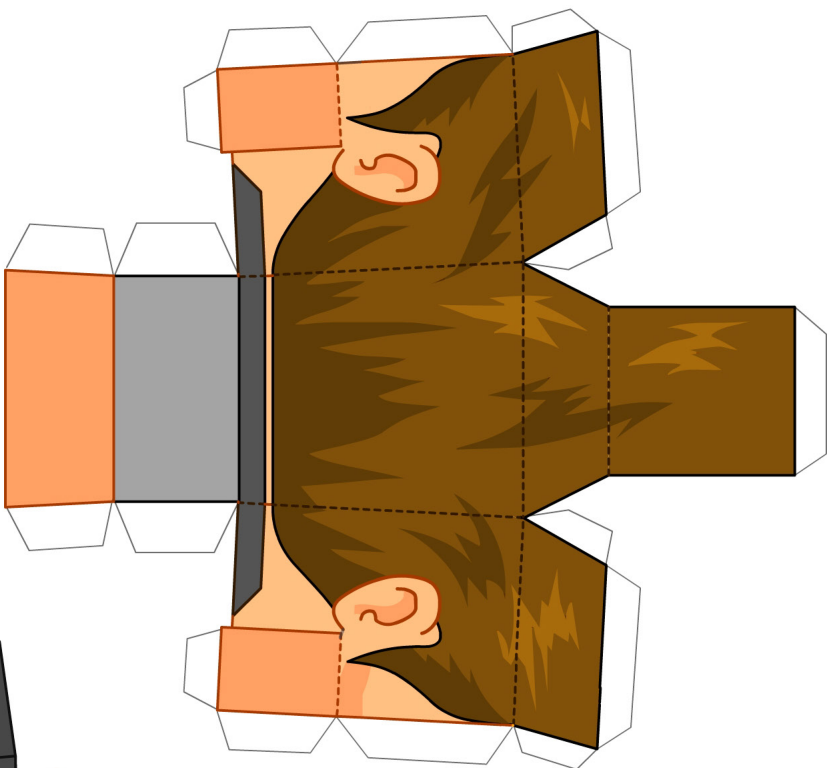

Avengers Movie
Hawkeye

This is 3D Fan art and is in no way affiliated with the characters or the company that owns them. They are created in honour of the characters and for no commercial/financial gain, and as such can't be distributed for any financial gain either please.

Fold up and piece together back of head
before adding face.

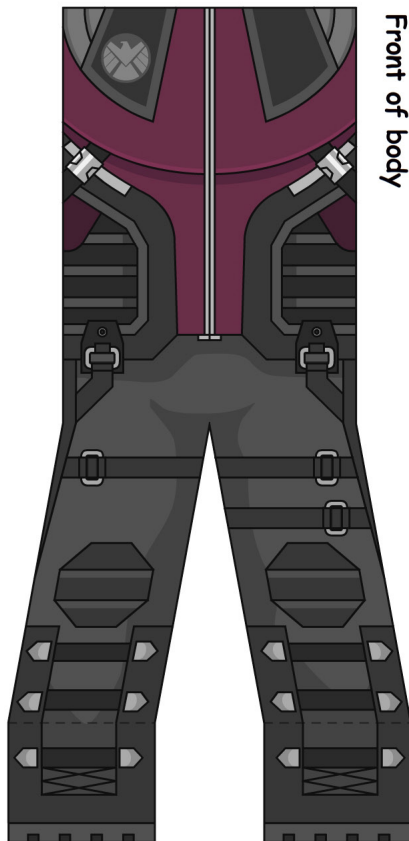

Optional Sunglasses

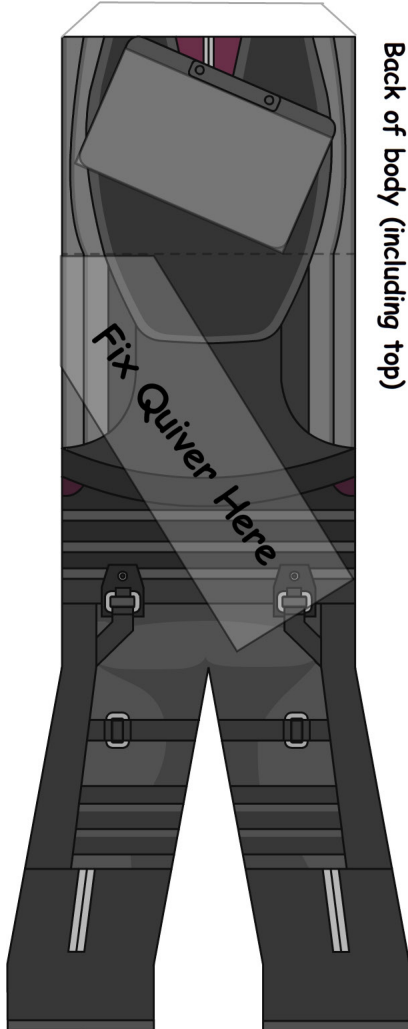

Which, though being on all the promo materials,
I don't think he actually wears in the film.

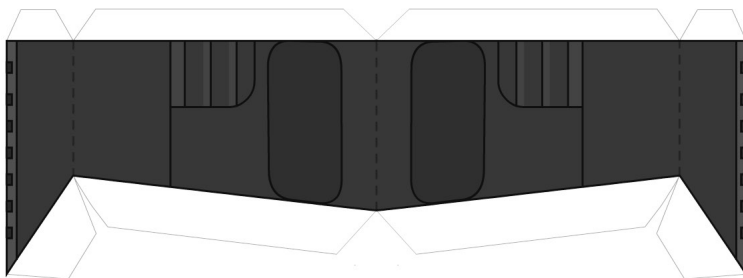

Front of body

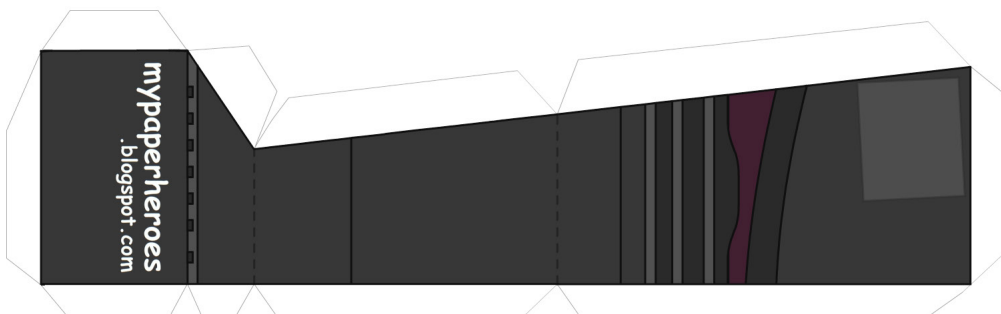

Back of body (including top)

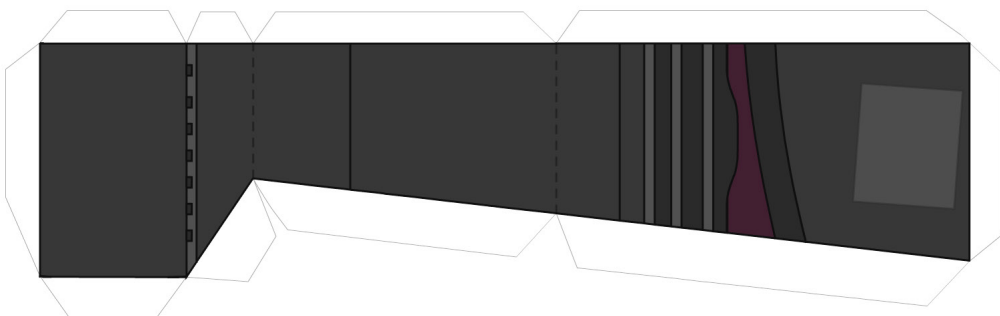

Inside of legs

Left side of body

Right side of body

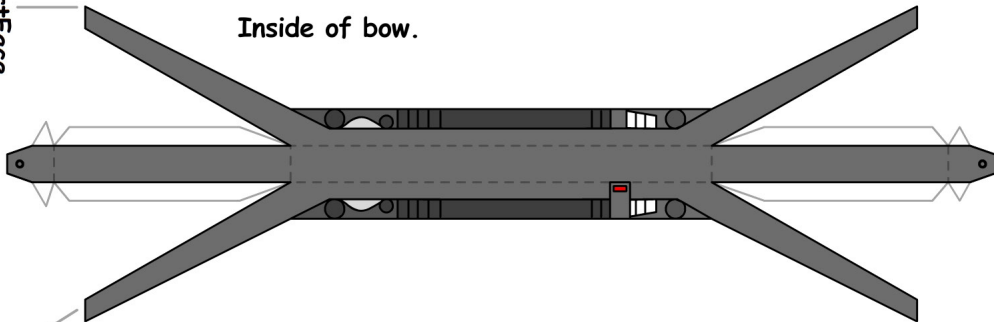

Inside of bow.

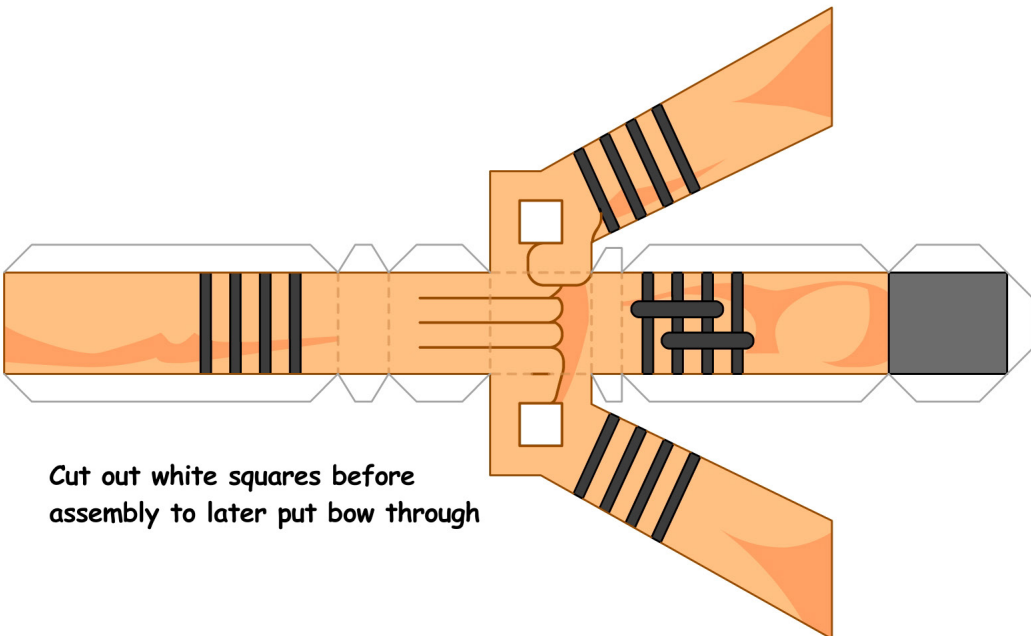

Inside of bow.

firstFace

lastFace

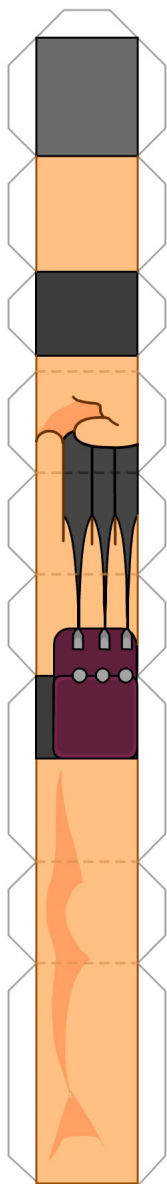

As the bow is quite thin, if it is not put together in the right order. I would recommend leaving the "lastFace" face right to the end. Fix everything, including the inside of the bow to the opposite face first (firstFace), and then the "lastFace" face can be folded down on top.

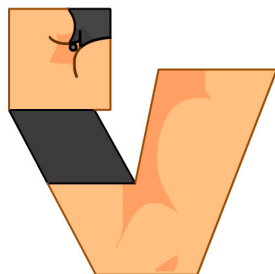

Cut out white squares before assembly to later put bow through

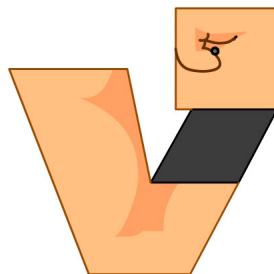

Fold along all the creases on this part first and it should become clear how the arm fits together

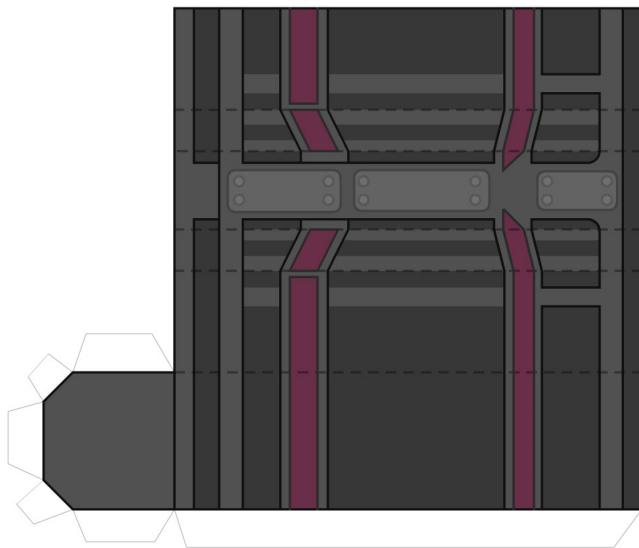

Top side of arm

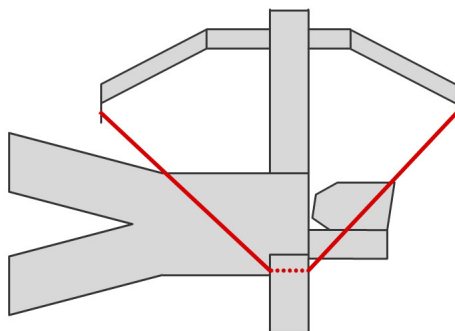

Underneath side of arm

Quiver. Fixes to back of body.

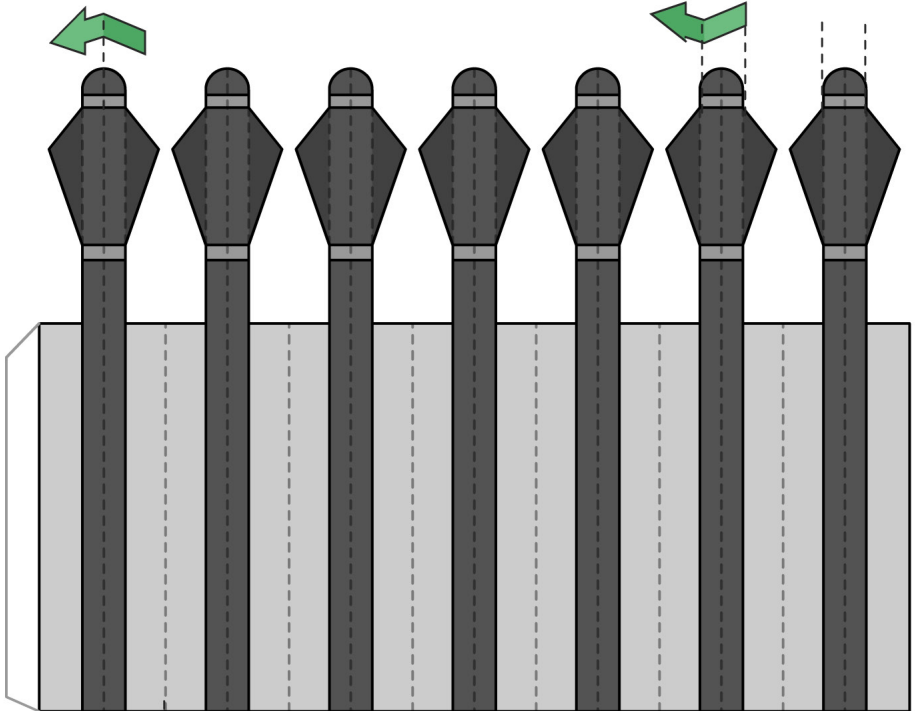

Get a needles and thread.
Tie one end through the hole in the top of the bow. Pierce through the top of the hand and out the other side. Put the thread through the bottom bow hole. Tighten the thread and then tie it up.

fold back each side to make a ridge for the arrow

Fletchlings/Feathers are all folded forward on each side of arrows

Fold each side up, making this like a valley/dip between the ridges (arrows)

Once all have been folded and stuck together, from the bottom this will look like a star shape. If you squeeze this up, it should fit snugly into the quiver.

This tab hold it in place on hand

Arrow folds round into triangular cuboid
